Current Academic appointments

2026– **Rector's Delegate for Artificial Intelligence**, University of Bergamo, Bergamo, Italy

2025– **Associate Professor of Computer Science**, *Department of Economics*, University of Bergamo, Bergamo, Italy

Past Academic appointments

2022–2025 **Researcher in Computer Science**, *Department of Economics*, University of Bergamo, Bergamo, Italy

2020–22 **Associate Professor of Operational Research**, *Department of Mathematical Sciences*, University of Southampton, Southampton, UK

2016–20 **Lecturer (Level 5, equiv. to Lecturer B) in Operational Research**, *Department of Mathematical Sciences*, University of Southampton, Southampton, UK

2019 **Visiting Professor**, *Université Paris Dauphine*

2018 **Visiting Professor**, *Politecnico di Milano*

2018 **Visiting Professor**, *Université Paris Dauphine*

2012–16 **Postdoctoral researcher**, *Lehrstuhl II für Mathematik (Department of Mathematics II)*, RWTH Aachen University, Aachen, Germany, Discrete Optimization group headed by Prof. Arie Koster

2011–12 **Postdoctoral researcher**, *Dipartimento di Elettronica e Informazione (Department of Electronics and Computer Science), Politecnico di Milano, Italy*, Operations Research group headed by Prof. F. Maffioli

2010 **Visiting scholar**, *Tepper School of Business, Carnegie-Mellon University, Pittsburgh, US, Pennsylvania*, Supervisor: Prof. F. Margot

Qualifications

2022 **National Scientific Qualification (Abilitazione Scientifica Nazionale) as Full Professor - sector "01/A6 Ricerca Operativa" (Operations Research)**

2021–23 **Fellow of the Alan Turing Institute**, *UK*

2021 **National Scientific Qualification (Abilitazione Scientifica Nazionale) as Associate Professor - sector "01/B1 Informatica" (Computer Science)**

2020 **National Scientific Qualification (Abilitazione Scientifica Nazionale) as Associate Professor - sector "01/A6 Ricerca Operativa" (Operations Research)**

2017– **Fellow of the Academy HE (formerly known as Higher Education Academy) (awarded: 15.12.2017)**, *awarded in recognition of attainment against the "UK Professional Standards Framework" for teaching and learning support in higher education*
Recognition reference: PR139371

2008–11 **PhD in Information Technology (awarded: 16.02.2011)**, *Dipartimento di Elettronica e Informazione (Department of Electronics and Computer Science, Operations Research Group), Politecnico di Milano*, Advisor: Prof. E. Amaldi
Thesis: *On coordinated cutting plane generation and mixed integer programs with nonconvex 2-norm constraints.*

2005–07 **MSc in Engineering of Computing Systems (awarded: 20.12.2007)**, *Politecnico di Milano*, Grade: 110/110 cum laude
Thesis: *Hyperplane clustering and piecewise linear model fitting.*

2002–05 **BSc in Engineering of Computing Systems (awarded: 28.09.2005)**, *Politecnico di Milano*, Grade: 110/110 cum laude
Thesis: *New constructive heuristics for finding minimal fundamental cycle bases in graphs.*

Scientific and professional memberships

2026– **Member of the ELLIS Society e.V.**, European Laboratory for Learning and Intelligent Systems (ELLIS), ELLIS Unit Milan

2026– **Member of the Unione Matematica Italiana (UMI)**

Research grants

2026–27 **Principal Investigator of the project *Modelli del comportamento degli agenti artificiali* (Seedcorn Grant 2026)**, *funder: University of Bergamo*, budget: 8,000 EUR

2023–25 **Co-Investigator of the project "New skills for the Public Administration: human-centered AI in the training of public employees" – "Nuove competenze per la PA: human-centered AI nella formazione dei dipendenti "pubblici (FAI - PA)**, *funder: Dipartimento della funzione pubblica*, budget: 99.555,50 EUR

2023–25 **Principal Investigator of the project Space-time graph convolutional neural networks (ST-GCN): learning and predicting time-varying graph relationships with applications to the air transportation sector**, *funder: University of Bergamo*, budget: 64,800 EUR

2023–25 **Investigator (and Local-Unit Leader) of PRIN-PNRR Project HEXAGON: Highly-specialized EXact Algorithms for Grid Operations at the National level**, *funder:EU's Next-Generation EU initiative and Italian Ministry of University and Research (MUR)*, budget: 232,300 EUR

2022–22 **Investigator of Project 7316614: Ad Hoc Training On Stochastic Programming & Optimisation**, *funder: Sainsbury's, UK*, budget: 6,400 GBP

2020–22 **Recipient of a Royal Society and China National Science Foundation International Exchange Grant**, *funder: the UK's Royal Society and China's National Science Foundation*, budget: 12,000 GBP

2020–21 **Investigator of the "Economic Ageing of Transformers" project**, *funder: the National Grid*, budget: 446,814 GBP

2018–19 **Recipient of the Paris Dauphine Visiting Professor Grant**, *funder: Université Paris Dauphine*, budget: 2,900 GBP

2018–19 **Recipient of the ESRC Impact Acceleration 'Next Generation Services' fund**, *funder: University of Southampton*, budget: 3494.40 GBP

2017–18 **Recipient of the Paris Dauphine Visiting Professor Grant**, *funder: Université Paris Dauphine*, budget: 2,900 GBP

2017–18 **Recipient of the SIRDF-FBLA Strategic Interdisciplinary Research Development Fund 2017/2018 for the project: *W-GREENBELT: Workshop on GREEN and BluE Logistics and Transport***, *funder: Faculty of Business, Law and Arts, University of Southampton*, budget: 6,789 GBP

2016–17 **Recipient of the SIRDF-FHSMS Strategic Interdisciplinary Research Development Fund 2016/2017 for the project *Hierarchical optimization techniques for forecasting***, *funder: Faculty of Social, Human and Mathematical Sciences, University of Southampton*, budget: 6,959 GBP

2015–16 **Recipient of the RWTH Start-Up grant for early-career researchers for the project *From the simplex method to cutting plane algorithms: bound-optimal cuts and bound-improving pivoting rules***, *funder: RWTH Aachen University*, budget: 20,000 EUR

Participation to research projects and consultancy activities

2022–22 **Ad Hoc Training On Stochastic Programming & Optimisation**, *funded by Sainsbury's*, UK

2020–21 **Economic Ageing of Transformers**, *funded by the National Grid*, UK
Development of optimzation algorithms for assessing the economical impact of updating the ratings of transformers

2018 **UK Met Office**, *Exeter, UK*
Development of optimization algorithms for personnel rostering subject to fairness and cyclicity constraints.

2014–16 **Robust optimization of power networks**, *funded by BMWi, Bundesministerium für Wirtschaft und Energie (Federal ministry for economy and energy), Germany*, industrial partner: ProCom GmbH, university: RWTH Aachen University

2013–16 **VINO: Virtual Network Optimization**, *funded by BMBF, Bundesministerium für Bildung und Forschung (Federal ministry for education and research), Germany*, university: RWTH Aachen University

2012–13 **Robust Mixed-Integer Linear Programming**, *funded by Google Inc.*, university: RWTH Aachen University

2011–12 **Planning and operation of IP networks with low energy consumption**, *funded by Lombardy Region (Italy), within the project "Green ICT & ICT for Green"*, university: Politecnico di Milano

2011–12 **CESI (Centro Elettronica Sperimentale Italiano, Italian Center for Experimental Electronics)**, *Milan, Italy*
Development of Mixed-Integer Linear Programming techniques to solve optimal power flow, outage minimization, and unit commitment problems in the Italian power network.

2011 **Coordinated cutting plane methods for integer linear programming**, *funded by MIUR, Ministero dell'Istruzione, dell'Università e Ricerca (Ministry for education, university, and research), Italy*, university: Politecnico di Milano

2008–10 **DECEMbRIA: decisions in health-care emergencies**, *funded by Lombardy Region, Health-care Directorate-General (Italy)*, partner: 118 Emergency Service operations center, university: Politecnico di Milano

Industrial collaborations within student supervisions

2016– **Collaborations with the following companies**, *Airbus, British Telecom, Babcock Aviation, Babcock Land, Gousto, De La Rue, Royal National Lifeboat Institute, Hampshire City Council (UK), Johnsons Controls, Microlise, Movement Strategies*

PhD dissertation

[D1] **On coordinated cutting plane generation and mixed integer programs with nonconvex 2-norm constraints**, Dipartimento di Elettronica e Informazione, Politecnico di Milano, 2011

Edited volumes

[E1] **Computational Logistics: 8th International Conference, ICCL 2017, Southampton, United Kingdom, October 18-20, 2017, Proceedings**, *with T. Bektas, T. Martinez-Sykora, S. Voß*, Lecture Notes in Computer Science, Springer Publisher, volume 10572

Chapters in books

[C2] **Definitional questions in a historical perspective**, "Artificial Intelligence: a research agenda (Intelligenza artificiale: un'agenda di ricerca)", M.F. Murru, ed., Università degli studi di Bergamo, 2024

[C1] **A Unified Framework for Multistage Mixed Integer Linear Optimization**, *with S. Bolusani, T. Ralphs, S. Tahernejad*, "Bilevel optimization: advances and next challenges", Dempe, S., Zemkoho, A., eds., Springer, 513–560, 2020 Publisher · arXiv

Journal papers

[J29] **Bridging theory and practice: Efficiently solving the unit commitment problem in production cost models**, *with P. Bunnak, S. Galelli*, Energy, 322 (2025), 135454 Publisher

[J28] **Let There be Direction in Hypergraph Neural Networks**, *with S. Fiorini, M. Ciavotta, A. Del Bue*, Transactions on Machine Learning Research (2024) Publisher

[J27] **Using artificial intelligence and deep learning to optimise the selection of adult congenital heart disease patients in S-ICD screening**, *with ElRefai, M., Abouelasaad, M., Conibear, I., Wiles, B.M., Dunn, A.J., Zemkoho, A.B., Morgan, J. and Roberts, P.R.*, Indian Pacing and Electrophysiology Journal 24 (4), 192-199 (2024) Publisher

[J26] **A numerically exact algorithm for the bin-packing problem**, *with R. Baldacci, J.F. Cordeau, F. Furini*, INFORMS Journal on Computing, 36(1), pp. 141-162 (2024) Publisher

[J25] **Deep learning and hyperparameter optimization for assessing one's eligibility for a subcutaneous implantable cardioverter-defibrillator**, *with A.J. Dunn, M. ElRefai, P.R. Roberts, B.M. Wiles, A.B. Zemkoho*, Annals of Operations Research, 328(1):309–335 (2023) Publisher · Optimization Online

[J24] **Correlation analysis of deep learning methods in S-ICD screening**, *with M. ElRefai, M. Abouelasaad, B.M. Wiles, A.J. Dunn, A.B. Zemkoho, J.M. Morgan, P.R. Roberts*, Annals of Noninvasive Electrocardiology, 2023, 28(4) Publisher

[J23] **Role of deep learning methods in screening for subcutaneous implantable cardioverter defibrillator in heart failure**, *with M. ElRefai, M. Abouelasaad, B.M. Wiles, A.J. Dunn, A.B. Zemkoho, J.M. Morgan, P.R. Roberts*, Annals of Noninvasive Electrocardiology, 2023, 28(1), e13028 Publisher

[J22] **Energy Storage Operation and Electricity Market Design: On the Market Power of Monopolistic Storage Operators**, *with E. Bjorndal, M. Bjorndal, M.-F. Körner, C. Leinauer, M. Weibelzahl*, European Journal of Operational Research, 307(2), 887–909 (2023) Publisher

[J21] **Submodular maximization of concave utility functions combined with a set-union operator with applications to maximal covering location problems**, *with F. Furini, I. Ljubic*, Mathematical Programming, 195, 9–56 (2022) Publisher · Optimization Online

[J20] **Deep learning-based insights on T:R ratio behaviour during prolonged screening for S-ICD eligibility**, *with M. ElRefai, M. Abouelasaad, Benedict M. Wiles, Anthony J. Dunn, Alain B. Zemkoho, Paul R. Roberts*, Journal of Interventional Cardiac Electrophysiology (first online 13th May 2022) Publisher

[J19] **Deep learning methods for screening patients' S-ICD implantation eligibility**, *with A. Dunn, M. ElRefai, P. Roberts, B. Wiles, A. Zemkoho*, Artificial Intelligence in Medicine 119 (2021) 102139 Publisher · arXiv

[J18] **On the exact separation of cover inequalities of maximum depth**, *with D. Catanzaro, F. Furini*, Optimization Letters 16, 449–469 (2022) Publisher · Optimization Online

[J17] **Optimizing over the Closure of Rank Inequalities with a Small Right-Hand Side for the Maximum Stable Set problem via Bilevel Programming**, *with S. Gualandi*, INFORMS Journal on Computing 34(2):1006-1023 (2021) Publisher

[J16] **Airport Capacity Extension, Fleet Investment, and Optimal Aircraft Scheduling in a Multi-Level Market Model: Quantifying the Costs of Imperfect Markets**, *with M. Sirvent, M. Weibelzahl*, OR Spectrum 43 (2), 367–408 (2021) Publisher

[J15] **A new combinatorial branch-and-bound algorithm for the Knapsack Problem with Conflicts**, *with F. Furini, P. San Segundo*, European Journal of Operational Research, 289 (2), 435–455 (2021) Publisher · Optimization Online

[J14] **Elastic traffic engineering subject to a fair bandwidth assignment via bilevel programming**, *with L. Gianoli, E. Amaldi, A. Capone*, IEEE/ACM Transactions on Networking, 28 (6), 2407–2420 (2020) Publisher

[J13] **A lexicographic pricer for the fractional bin packing problem**, *with F. D'Andreagiovanni, F. Furini*, Operations Research Letters, 47(6), 622–628 (2019) Publisher

[J12] **Computing a Pessimistic Leader-Follower Equilibrium with Multiple Followers: the Mixed-Pure Case**, *with A. Marchesi, N. Gatti*, Algorithmica, 82(5), 1189–1238 (2019) Publisher · arXiv

[J11] **Leadership in Singleton Congestion Games: What is Hard and What is Easy**, *with A. Marchesi, M. Castiglioni, N. Gatti*, Artificial Intelligence (AIJ): 277, 1–31 (2019) Publisher · arXiv

[J10] **Bilevel programming methods for computing single-leader-multi-follower equilibria in normal-form and polymatrix games**, *with with N. Basilico, A. Marchesi, N. Gatti*, EURO Journal on Computational Optimization, 8(1), 3–31 (2019) Publisher

[J9] **A new branch-and-bound algorithm for the maximum edge-weighted clique problem**, *with P. San Segundo, F. Furini, I. Ljubic*, European Journal of Operational Research (EJOR): 278 (1), 76–90 (2019) Publisher

[J8] **Lot sizing with storage losses under demand uncertainty**, *with A. Koster, N. Spiekermann*, Journal of Combinatorial Optimization 36: 763–788 (2018) Publisher

[J7] **A workload-dependent task assignment policy for crowd-sourcing**, *with I. Catallo, P. Fraternali, D. Martinenghi*, World Wide Web Journal: 20 (6): 1179–1210 (2017) Publisher

[J6] **Discrete optimization methods to fit piecewise-affine models to data**, *with E. Amaldi, L. Taccari*, Computers and Operations Research, 75: 214–230 (2016) Publisher

[J5] **Data Uncertainty in Virtual Network Embedding: Robust Optimization and Protection Levels**, *with A. Koster, M. Tieves*, Journal of Network and Systems Management, 24(3): 681–710 (2016) Publisher

[J4] **Coordinated cutting plane generation via multi-objective separation**, *with E. Amaldi, S. Gualandi*, Mathematical Programming, series A, 143(1–2): 87–110 (2014) Publisher · Optimization Online

[J3] **Network optimization problems subject to max-min fair flow allocation**, *with E. Amaldi, A. Capone, L. Gianoli*, IEEE Communications Letters, 17(7): 1463–1466 (2013) Publisher

[J2] **A distance-based point reassignment heuristic for the k-hyperplane clustering problem**, *with E. Amaldi*, European Journal of Operations Research, 227(1): 22–29 (2013) Publisher

[J1] **On coordinated cutting plane generation and mixed integer programs with nonconvex 2-norm constraints**, *single author*, 4OR: A Quarterly Journal of Operations Research, 11(1): 95–96 (2013) Publisher

Peer-reviewed papers published in conference proceedings

[P31] **PANDA: Prior-guided Attentional Dual-path Architecture**, *with R. Jain, F. Belotti, S. Fiorini*, Annual Conference on Neural Information Processing Systems (NeurIPS), 2026 (Main Track) OpenReview

[P30] **Solving the 2-norm k-hyperplane clustering problem via multi-norm formulations**, *single author*, International Conference on Learning Representations (ICLR), Rio, Brazil, 2026 OpenReview

[P29] **Directional Sheaf Hypergraph Networks: Unifying Learning on Directed and Undirected Hypergraphs**, *with E. Mule, S. Fiorini, A. Purificato, F. Siciliano, F. Silvestri*, International Conference on Learning Representations (ICLR), Rio, Brazil, 2026 Publisher · arXiv

[P28] **Sheaves Reloaded: A Direction Awakening**, *with S. Fiorini, H. Aktas, I. Duta, P. Morerio, A. Del Bue, P. Liò*, International Conference on Learning Representations (ICLR), Rio, Brazil, 2026 Publisher · arXiv

[P27] **Bilevel Optimization Model and a Heuristic Solution Method for Transformer Rating Optimization**, *with F. Garuba, A. Martinez-Sykora, C. Tomasi, A.B. Zemkoho*, Optimization and Decision Science (ODS), Milan, Italy, 2025
Springer Proceedings in Mathematics and Statistics, to appear.

[P26] **Graph Learning in 4D: a Quaternion-valued Laplacian to Enhance Spectral GCNs**, *with S. Fiorini, M. Ciavotta, E. Messina*, AAAI Conference on Artificial Intelligence AAAI, Vancouver, CA, 2024 Publisher · arXiv
Proceedings of the 38th AAAI

[P25] **SigMaNet: One Laplacian to Rule Them All**, *with S. Fiorini, M. Ciavottae, E. Messina*, AAAI Conference on Artificial Intelligence AAAI, Washington, US, 2023 Publisher · arXiv
Proceedings of the 37th AAAI

[P24] **Private Bayesian Persuasion with Sequential Games**, *with N. Celli, N. Gatti*, AAAI Conference on Artificial Intelligence AAAI, New York, US, 2020 Publisher · arXiv
Proceedings of 37th AAAI

[P23] **Computing Optimal Ex Ante Correlated Equilibria in Two-Player Sequential Games**, *with A. Celli, N. Gatti*, International Conference on Autonomous Agents and Multiagent Systems (AAMAS), Montreal, Canada, 2019 Publisher
Proceedings of the 18th AAMAS

[P22] **Leadership in Singleton Congestion Games**, *with A. Marchesi, N. Gatti*, International Joint Conference on Artificial Intelligence (IJCAI), Stockholm, Sweden, 2018 Publisher
Proceedings of the 27th IJCAI, pages: 447–453

[P21] **Facility location with item storage and delivery**, *with J. Fliege, R. Walton*, Optimization and Decision Science (ODS), Sorrento, Italy, 2017 Publisher
Springer Proceedings in Mathematics and Statistics, A. Sforza, C. Sterle, eds., 2017

[P20] **On the separation of topology-free rank inequalities for the max stable set problem**, *with S. Gualandi*, International Symposium on Experimental Algorithms (SEA), London, UK, 2017 Publisher
Leibniz International Proceedings in Informatics, pages 29:1–29:13, 2017

[P19] **Pessimistic Leader-Follower Equilibria with Multiple Followers**, *with N. Gatti, A. Marchesi*, International Joint Conference on Artificial Intelligence (IJCAI), Melbourne, Australia, 2017 Publisher
Proceedings of the 26th IJCAI, pages: 171–177

[P18] **Bilevel programming approaches to the computation of optimistic and pessimistic leader-multi-follower equilibria**, *with N. Basilico, N. Gatti, A. Marchesi*, International Symposium on Experimental Algorithms (SEA), London, UK, 2017 Publisher
Leibniz International Proceedings in Informatics, pages 31:1–31:14, 2017

[P17] **On robust lot sizing problems with storage deterioration, with applications to heat and power cogeneration**, *with A. Koster, N. Spiekermann*, International Symposium on Combinatorial Optimization (ISCO), Vietri Sul Mare, Salerno, Italy, 2016 Publisher
Combinatorial Optimization, LNCS, 9849: 26–37, 2016

[P16] **Methods for Finding Leader-Follower Equilibria with Multiple Followers**, *with N. Basilico, N. Gatti*, International Conference on Autonomous Agents and Multiagent Systems (AAMAS 2016), Singapore, 2016 Publisher · arXiv

[P15] **On the generation of cutting planes which maximize the bound improvement**, *with M. Tieves*, International Symposium on Experimental Algorithms (SEA), Paris, France, 2015 Publisher · Optimization Online
Experimental Algorithms, LNCS, 9125: 97–109, 2015

[P14] **Virtual network embedding under uncertainty: exact and heuristic approaches**, *with A. Koster, M. Tieves*, International Conference on Design of Reliable Communication Networks (DRCN), Kansas City, US, Missouri, 2015 Publisher
IEEE Xplore, 10.1109/DRCN.2015.7148978, 1–8, 2015

[P13] **On the computational complexity of the virtual network embedding problem**, *with A. Koster, M. Tieves*, International Network Optimization Conference (INOC), Warsaw, Poland, 2015 Publisher
Electronic Notes in Discrete Mathematics, 52: 213–220, 2016

[P12] **Maximum throughput network routing subject to fair flow allocation**, *with E. Amaldi, L. Taccari*, International Symposium on Combinatorial Optimization (ISCO), Lisbon, Portugal, 2014 Publisher
Combinatorial Optimization, LNCS, 8596: 1–12, 2014.

[P11] **Bound-optimal cutting planes**, *single author*, Cologne-Twente Workshop on Graphs and Combinatorial Optimization (CTW), Enschede, Netherlands, 2013 Proceedings

[P10] **Energy-aware traffic engineering with elastic demands and MMF bandwidth allocation**, *with E. Amaldi, A. Capone, L. Gianoli*, IEEE International Workshop on Computer Aided Modeling and Design of Communication Links and Networks (CAMAD), IEEE, Berlin, Germany, 2013 Publisher
IEEE Xplore, 10.1109/CAMAD.2013.6708111, 169–174, 2013

[P9] **On single-path network routing subject to max-min fair flow allocation**, *with E. Amaldi, L. Gianoli, C. Ileri*, International Network Optimization Conference (INOC), Tenerife, Spain, 2013 Publisher
Electronic Notes in Discrete Mathematics, 41: 543–550, 2013

[P8] ***k*-Piecewise Affine Model Fitting: Heuristics based on multiway linear classification**, *with E. Amaldi, L. Taccari*, Cologne-Twente Workshop on Graphs and Combinatorial Optimization (CTW), Munich, Germany, 2012

[P7] **The impact of the norm on the *k*-Hyperplane Clustering problem: relaxations, restrictions, approximation factors, and exact formulations**, *single author*, Cologne-Twente Workshop on Graphs and Combinatorial Optimization (CTW), Frascati (Rome), Italy, 2011

[P6] **Formulations and heuristics for the *k*-Piecewise Affine Model Fitting problem**, *with E. Amaldi, L. Taccari*, Cologne-Twente Workshop on Graphs and Combinatorial Optimization (CTW), Frascati (Rome) Italy, 2011

[P5] **Improving cutting plane generation with 0-1 inequalities by bi-criteria separation**, *with E. Amaldi, S. Gualandi*, International Symposium on Experimental Algorithms (SEA), Ischia (Naples), Italy, 2010 Publisher
Experimental Algorithms, LNCS, 6049: 266–275, 2010

[P4] **Single and multi-group evacuation in medium and maxi health-care emergencies**, *with E. Amaldi, C. Iuliano*, Operations Research Applied to Health Services Conference (ORAHS), Genoa, Italy, 2010

[P3] **Optimization models for injured people evacuation in medium/maxi health-care emergencies**, *with E. Amaldi, C. Iuliano*, Workshop on Health Care Management (WHCM), IEEE, Venice, Italy, 2010 Publisher
IEEE Xplore, 10.1109/WHCM.2010.5441250, 1–6, 2010

Invited talks and seminars

[M24] **Discussant, presentation of the edited volume *Algomedia* (2026) by P. Conte and A. C. Dalmasso**, *Seminar cycle "Prismi – Sei parole chiave per un'ecologia dell'intelligenza artificiale"*, University of Bergamo, 2026

[M23] **Spectral Learning on Directed Graphs and Hypergraphs via More Expressive Laplacian Matrices**, *Invited by Prof. T. Ralphs*, Lehigh University, Department of Industrial and Systems Engineering (ISE Seminar Series), Bethlehem, PA, USA, 2026

[M22] **Advances in Spectral Graph and Hypergraph Learning: towards more expressive Laplacian matrices**, *Invited by Prof. S. Gualandi*, Università di Pavia, Pavia, 2025

[M21] **Graph and Hypergraph Learning via Complex- and Quaternion-Valued Spectral Convolutional Operators**, *MATH4AI, UMI Workshop*, Bari, Italy, 2025
Keynote invited by UMI Group Mathematics for Artificial Intelligence and Machine Learning

[M20] **Integer programming and norm minimization (in machine learning?)**, *Invited by Prof. P. Avella*, Università del Sannio, Benevento, 2023

[M19] **Bound-optimal cutting-plane generation**, *Invited by G. Eichfelder, J. Kronqvist, A. Lodi, F. Oliveira, E. Rönnberg*, Learning from Both Sides Linear and Nonlinear Mixed-Integer Optimization @ Institute Mittag-Leffler, Djursholm (SWE), 2023

[M18] **A Numerically-Exact Algorithm for the Bin Packing Problem**, *Invited by Prof. L. Mariani*, Università di Milano-Bicocca, Milan, 2023

[M17] **Minimizing vector norms with integer programming**, *Invited by Prof. S. Gualandi*, Università di Pavia, Pavia (virtually), 2022

[M16] **Integer programming and norm minimization for data science**, *Invited by Prof. E. Messina*, Università di Milano-Bicocca, Milan (virtually), 2021

[M15] **Bilevel programming and the computation of pessimistic single-leader-multi-follower equilibria in Stackelberg games**, *Invited by Dr. S. Toubaline*, LAMSADE, Université Paris-Dauphine, Paris, FR, 2019

[M14] **The bin packing problem with item class setups**, *Invited by Prof. E. Amaldi*, Politecnico di Milano, Department of Electronics, Information, and Biotechnologies, Milan, 2019

[M13] **Bilevel programming and the computation of pessimistic single-leader-multi-follower equilibria in Stackelberg games**, *Invited by Dr. T. Oertel*, Cardiff University, Department of Mathematics, Cardiff, 2019

[M12] **Computing Optimistic and Pessimistic Leader-Follower Equilibria with Multiple Followers**, *Invited by Dr. R. Misener*, Imperial Colledge London, Department of Computing, London, 2018

[M11] **Network routing through the Internet as a Stackelberg game**, *Invited by Prof. T. Ralphs*, Lehigh University, Department of Industrial and Systems Engineering, Bethlehem, US, Pennsylvania, 2018

[M10] **Exact single level and bilevel programming approaches to the computation of Leader-Follower Nash Equilibria in games with many followers**, *Invited by Dr. L. Tran-Thanh*, University of Southampton, AIC (Agents, Interactions and Complexity) seminar series, Department of Electronics and Computer Science, Southampton, 2017

[M9] **Network routing through the Internet as a Stackelberg game**, *Invited by Prof. H. Xu*, University of Southampton, Business Advisory Board meeting, CORMSIS (Centre for Operational Research, Management Science and Information Systems), University of Southampton, 2017

[M8] **Exact single level and bilevel programming approaches to the computation of Leader-Follower Nash Equilibria in games with many followers**, *Invited by Dr. S. Gualandi*, Pavia University, Pavia, 2017

[M7] **Network routing through the Internet as a Stackelberg game**, *Invited by Prof. A. Koster*, RWTH Aachen University, Aachen, 2017

[M6] **Computing Leader-Follower Nash Equilibria in games with many followers via optimistic and pessimistic bilevel programming**, *Invited by Prof. A. Koster*, RWTH Aachen University, Aachen, 2016

[M5] **On bilevel programming and the computation of Leader-Follower (Nash) Equilibria in games with many followers**, *Invited by Prof. N. Gatti*, Politecnico di Milano, Milan, 2016

[M4] **(Bilevel programming and) bound-optimal cutting plane generation**, *Invited by Prof. T. Ralphs*, Department of Industrial and Systems Engineering, Lehigh University, Bethlehem, US, Pennsylvania, 2015

[M3] **On the exact separation of rank inequalities for the maximum stable set problem**, *Invited by Dr. F. D'Andreagiovanni*, Zuse Institute Berlin (ZIB), Berlin, Germany, 2014

[M2] **Coordinated cutting plane generation via multi-objective separation and extensions**, *Invited by Prof. A. Koster*, RWTH Aachen University, Aachen, Germany, 2012

[M1] **Applications of exact mathematical programming**, *Invited by Dr. M. Pozzi*, Centro Elettronica Sperimentale Italiano, Italian Center for Experimental Electronics (CESI), Milan, Italy, 2011

Conference oral/poster presentations

[O41] **PANDA: Prior-guided Attentional Dual-path Architecture**, *with R. Jain, F. Belotti, S. Fiorini*, Learning on Graphs (LoG) Italian Meetup 2026, Pisa, Italy, 2026
Poster presentation

[O40] **Poster presentations of three papers**, International Conference on Learning Representations (ICLR 2026), Rio de Janeiro, Brazil, 2026
"Solving the 2-norm k-hyperplane clustering problem via multi-norm formulations"; "Directional Sheaf Hypergraph Networks: Unifying Learning on Directed and Undirected Hypergraphs" (with E. Mule, S. Fiorini, A. Purificato, F. Siciliano, F. Silvestri); "Sheaves Reloaded: A Direction Awakening" (with S. Fiorini, H. Aktas, I. Duta, P. Morerio, A. Del Bue, P. Liò)

[O38+M22] **Graph and Hypergraph Learning via Complex- and Quaternion-Valued Spectral Convolutional Operators**, *3rd Workshop of UMI Group Mathematics for Artificial Intelligence and Machine Learning (MATH4AI 2025)*, Bari, Italy, 2025
Keynote invited by UMI Group Mathematics for Artificial Intelligence and Machine Learning

[O37] **Graph and Hypergraph Learning via Complex- and Quaternion-Valued Spectral Convolutional Operators**, Economics Winter Seminar 2025, Castione della Presolana, Italy, 2025

[O38] **Graph Learning in 4D: a Quaternion-valued Laplacian to Enhance Spectral GCNs**, AAAI Conference on Artificial Intelligence (AAAI 2024), Vancouver, Canada

[O37] **Investment models in the energy and aviation markets via multi-level optimization**, Economics Winter Seminar 2024, Castione della Presolana, Italy, 2024

[O36+M19] **Bound-optimal cutting-plane generation**, *with T. Ralphs*, Learning from Both Sides Linear and Nonlinear Mixed-Integer Optimization @ Institute Mittag-Leffler, Djursholm (SWE), 2023
Invited by G. Eichfelder, J. Kronqvist, A. Lodi, F. Oliveira, E. Rönnberg

[O35] **Mixed integer bilevel programming methods for solving pessimistic multi-follower bilevel problems over simplices.**, 1st International Conference on Bilevel Optimization (ICBO2023), 2023
Southampton, UK

[O34] **A Numerically-Exact Algorithm for the Bin Packing Problem**, *with R. Baldacci, F. Cordeau, F. Furini*, 31th Annual conference of the Association of European Operational Research Societies (EURO), Espoo, Finland, 2022

[O33] **Norm minimization problems in data science: an integer programming perspective**, ECCO XXXV - CO 2022 Joint Conference, Online, 2022

[O32] **Infinite-Precision Pattern-Enumeration Techniques for Bin Packing Problems**, *with R. Baldacci, F. Furini*, 63th Annual Meeting of the Operational Research Society (OR63), Online, 2021

[O31] **Decomposition methods for maximizing a submodular function combined with a set-union operator**, *with F. Furini, I. Ljubic*, 3rd IMA/OR Society Conference, Online, 2021

[O30] **Decomposition methods for maximizing a submodular function combined with a set-union operator**, *with F. Furini, I. Ljubic*, International Conference on Optimization and Decision Science (ODS), Online, 2020

[O29] **The bin packing problem with item class setups**, *with F. Furini, I. Ljubic*, 30th Annual conference of the Association of European Operational Research Societies (EURO), Dublin, Ireland, 2019

[O28] **Computing Pessimistic Leader-Follower Equilibria with Multiple Followers (in the mixed-pure case)**, *with N. Gatti, A. Marchesi*, International Symposium on Mathematical Programming (ISMP), Bordeaux, France, 2018

[O27] **Computing Leader-follower equilibria with multiple followers under the assumption of pessimism in the mixed-pure case**, *with N. Gatti, A. Marchesi*, International Workshop on Bilevel Programming (IWOBIP), Lille, France, 2018

[O26] **Using Mathematical Optimisation and Game Theory to improve the speed of broadband connections over the Internet**, *with E. Amaldi, A. Capone, L. Gianoli*, STEM for Britain, House of Commons (Westminster), London, UK, 2017

[O25] **On the separation of topology-free rank inequalities for the max stable set problem**, *with S. Gualandi*, International Symposium on Experimental Algorithms (SEA), London, UK, 2017
Leibniz International Proceedings in Informatics, pages 21:1–29:13, 2017

[O24] **Bilevel programming approaches to the computation of optimistic and pessimistic leader-multi-follower equilibria**, *with N. Basilico, N. Gatti, A. Marchesi*, International Symposium on Experimental Algorithms (SEA), London, UK, 2017
Leibniz International Proceedings in Informatics, pages 31:1–31:14, 2017

[O23] **On the computational complexity of the virtual network embedding problem**, *with A. Koster, M. Tieves*, International Network Optimization Conference (INOC), Warsaw, Poland, 2015
Electronic Notes in Discrete Mathematics, 52: 213–220, 2016

[O22] **On the generation of cutting planes which maximize the bound improvement**, *with M. Tieves*, International Symposium on Experimental Algorithms (SEA), Paris, France, 2015
Experimental Algorithms, LNCS, 9125: 97–109, 2015

[O21] **Dynamic robust optimization approaches to lot sizing**, *with A. Koster, N. Spiekermann, L. Taccari*, Modeling and optimization: theory and applications (MOPTA), Bethlehem, US, Pennsylvania, 2015

[O20] **Applications of bilevel programming to cutting plane generation**, *with M. Tieves, S. Gualandi*, International Symposium on Mathematical Programming (ISMP), Pittsburgh, US, Pennsylvania, 2015

[O19] **Bound optimal cutting planes: on the generation of cuts which maximize the bound improvement**, Annual Conference of the French Operations Research Society (ROADEF), Marseille, FR, 2015

[O18] **On the exact separation of rank inequalities for the maximum stable set problem**, *with S. Gualandi*, Integer Programming and Combinatorial Optimization (IPCO), Bonn, Germany, 2014

[O17] **Maximum throughput network routing subject to fair flow allocation**, *with E. Amaldi, L. Taccari*, International Symposium on Combinatorial Optimization (ISCO), Lisbon, Portugal, 2014
Combinatorial Optimization, LNCS, 8596: 1–12, 2014.

[O16] **Virtual network embedding with network design elements: reservation of physical resources**, *with A. Koster, M. Tieves*, INFORMS Annual Meeting, San Francisco, US, California, 2014

[O15] **On the generation of cuts which maximize the bound improvement**, *with M. Tieves*, Annual Conference of the Italian Operational Research Society (AIRO), Como, Italy, 2014
Within the "Mixed-integer linear programming" organized session, chaired by myself and S. Gualandi.

[O14] **On the exact separation of rank inequalities for the stable set problem**, *with S. Gualandi*, International Symposium on Combinatorial Optimization (ISCO), Lisbon, Portugal, 2014

[O13] **Bilevel optimization models for traffic engineering with elastic demands and fair flow allocation**, *with E. Amaldi, A. Capone, L. Gianoli*, INFORMS Telecommunications Conference (INFORMS TELECOM), Lisbon, Portugal, 2014

[O12] **Bound-optimal cutting planes**, *single author*, Cologne-Twente Workshop on Graphs and Combinatorial Optimization (CTW), Enschede, Netherlands, 2013

[O11] **Valid inequalities and lifting for the 0-1 Gamma-robust knapsack problem**, *with C. Büsing, A. Koster*, European Conference on Operational Research (EURO), Rome, Italy, 2013

[O39] **Spatial branch-and-bound methods for solving the k-Hyperplane clustering**, *with M. Jaidee*, 22nd EUROPT Conference on Advances in Continuous Optimization (EUROPT 2025), Southampton, UK, 2025
Work subsequently published at ICLR 2026 as "Solving the 2-norm k-hyperplane clustering problem via multi-norm formulations"

[O10] **Spatial branch-and-bound for nonconvex Euclidean norm constrained mathematical programs**, *with F. Margot*, International Symposium on Mathematical Programming (ISMP), Berlin, Germany, 2012

[O9] **The impact of the norm on the k-Hyperplane Clustering problem: relaxations, restrictions, approximation factors, and exact formulations**, *single author*, Cologne-Twente Workshop on Graphs and Combinatorial Optimization (CTW), Frascati (Rome), Italy, 2011

[O8] **Multi-objective separation for sequentially coordinated cutting plane generation**, *with E. Amaldi, S. Gualandi*, Combinatorial Optimization Workshop (COW), Aussois, France, 2011

[O7] **(Beyond) sequentially coordinated cutting plane generation for inequalities with integer coefficients**, *with E. Amaldi, S. Gualandi*, Mixed Integer Programming Workshop (MIP), Waterloo, Canada, Ontario, 2011

[O6] **Improving cutting plane generation with 0-1 inequalities by bi-criteria separation**, *with E. Amaldi, S. Gualandi*, International Symposium on Experimental Algorithms (SEA), Ischia (Naples), Italy, 2010
Experimental Algorithms, LNCS, 6049: 266–275, 2010

[O5] **Exact bi-criteria cutting plane generation for inequalities with 0-1 coefficients**, *with E. Amaldi, S. Gualandi*, Mixed Integer Programming Workshop (MIP), Atlanta, US, Georgia, 2010

[O4] **An adaptive point-reassignment metaheuristic for the k-hyperplane clustering problem**, *with E. Amaldi*, Metaheuristic International Conference (MIC), Hamburg, Germany, 2009

[O3] **k-Hyperplane Clustering: an adaptive point-reassignment algorithm**, *with E. Amaldi*, International Symposium on Mathematical Programming (ISMP), Chicago, US, Illinois, 2009

[O2] **Towards a decision support system for injured people evacuation in medium/maxi emergencies**, *with E. Amaldi, C. Iuliano*, PhD Alumni Association Meeting (PhDei), Milan, Italy, 2009

[O1] **Discrete optimization algorithms for the k-hyperplane clustering problem**, *with E. Amaldi, K. Dhyani*, Annual Conference of the Italian Operational Research Society (AIRO), Ischia (Naples), Italy, 2008

Activities as conference organizer

[CO6] **HEXAGON2025**, *The second HEXAGON Workshop on Power Grids*, Benevento, Italy, September 2025

[CO6] **HEXAGON2024**, *The HEXAGON Workshop on Power Grids*, Bergamo, Italy, June 2024

[CO5] **ICBO2023**, *1st International Conference on Bilevel Optimization*, Southampton, UK, August 2023

[CO4] **OR63**, *63rd Annual conference of the Operational Research Society*, University of Southampton (Virtual), September 2021

[CO3] **W-GREENBELT 2018**, *Workshop on GREEN and BluE Logistics and Transport*, University of Southampton, 16-17 July 2018

[CO2] **ICCL 2017**, *International Conference on Computational Logistics*, University of Southampton, 18-20 October 2017

[CO1] **BODAF 2017**, *(Bilevel) Optimization, Data Analysis and Forecasting*, University of Southampton, 3-4 July 2017

Activities as conference stream organizer

[CStO2] **64th Annual Conference of the Operational Research Society 2022**, *(Warwick, UK), stream title: "Combinatorial Optimisation"*

[CStO1] **63rd Annual Conference of the Operational Research Society 2021**, *(Online, UK), stream title: "Combinatorial Optimisation"; sessions: "Integer programming and combinatorial optimisation", "Heuristic and scheduling problems", "Submodularity, robustness and nonlinear optimisation"*, speakers: I. Aliev, S. Gualandi, Y. Lu, V.T. Ramamoorthy, D. Paraskevopoulos, C. Lamas-Fernandez, J. Ward, F. Garuba, M. Anjos, and myself

Activities as conference session organizer

[CSO6] **ICBO2023**, *1st International Conference on Bilevel Optimization*, Southampton, UK, session title: "(Mixed) integer (nonlinear) bilevel optimization", jointly organized with M. Schmidt

[CSO5] **IMA and OR Society Conference on Mathematics of Operational Research 2021**, *(Online, UK), session title: "(Multilevel) optimization methods for energy transmission"*, speakers: L. Schewe, M. Weibelzahl, P. Bartmeyer

[CSO4] **European Conference on Operational Research (EURO) 2019**, *(Dublin, IR), session title: "Packing and Covering with Integer Programming"*, speakers: P. Fath, F. Antonio Medrano, S. Coniglio, M. Sorensen

[CSO3] **IMA and OR Society Conference on Mathematics of Operational Research 2017**, *(Birmingham, UK), session title: "Nonlinear and Bilevel Optimisation"*, speakers: M. Sinnl, A. Zemkoho, S. Brierley

[CSO2] **International Symposium on Mathematical Programming (ISMP) 2015**, *(Pittsburgh, US, Pennsylvania), session title: "Applications of Bilevel Programming to Combinatorial Optimization and Game Theory"*, speakers: M. Carvalho, L. Lozano, C. Casorran-Amilburu

[CSO1] **Annual Conference of the Italian Operations Research Society (AIRO) 2014**, *(Como, Italy), session title: "Mixed-integer linear programming"*, speakers: S. Smriglio, M. Boccia, S. Coniglio

Visits for scientific collaborations

[I12] **Università La Sapienza, Rome**, *February 2023*, invited by Prof. F. Furini

[I11] **Dauphine University, Paris**, *November 2019*, invited by Dr. F. Furini

[I10] **Dauphine University, Paris**, *June/July 2019*, invited by Dr. F. Furini

[I9] **Dauphine University, Paris**, *October 2018*, invited by Dr. F. Furini

[I8] **Dauphine University, Paris**, *May 2018*, invited by Dr. F. Furini

[I7] **Lehigh University, Bethlehem**, *April 2018*, invited by Prof. T. Ralphs

[I6] **RWTH Aachen University, Aachen**, *March 2017*, invited by Prof. A. Koster

[I5] **RWTH Aachen University, Aachen**, *April 2016*, invited by Prof. A. Koster

[I4] **Politecnico di Milano, Milan**, *March 2016*, invited by Prof. N. Gatti

[I3] **Lehigh University, Bethlehem**, *July 2015*, invited by Prof. T. Ralphs

[I2] **Zuse Institute Berlin (ZIB), Berlin**, *December 2014*, invited by Dr. F. D'Andreagiovanni

[I1] **Politecnico di Milano, Milan**, *a number of times since September 2012*, invited by Prof. E. Amaldi and N. Gatti

[I0] **Carnegie-Mellon University, Pittsburgh**, *January-March 2010*, invited by Prof. F. Margot

Researchers invited for scientific collaborations

[V5] **S. Gualandi (University of Pavia)**, *November 2018*, invited to University of Southampton

[V4] **F. Furini (Dauphine University)**, *August 2018*, invited to University of Southampton

[V3] **T. Ralphs (Lehigh University)**, *April 2017*, invited to University of Southampton

[V2] **L. Taccari (Politecnico di Milano)**, *March 2015*, invited to RWTH Aachen University

[V1] **S. Gualandi (AntOptima)**, *November 2013*, invited to RWTH Achen University

Seminars hosted

[H3] **G. P. Leonardi (University of Trento)**, *14 October 2026*, Statistics and Computational Methods Seminar Series, Department of Economics, University of Bergamo
"Rate-convergence and regularization of quantized networks" Event page

[H2] **F. Furini (Sapienza University of Rome)**, *17 December 2025*, Statistics and Computational Methods Seminar Series, Department of Economics, University of Bergamo
"Hidden Bilevel Structures in Graph Disconnection Problems: Models and Exact Algorithms" Event page

[H1] **C. Bravo (Western University, Canada)**, *20 June 2025*, Economics Seminar Series, Department of Economics, University of Bergamo
"Financial Risk Contagion Models Using Dynamic Multimodal Graph Learning"

Activities as editorial board member

2020 - **Associate Editor**, *Asia-Pacific Journal of Operational Research*

Activities as reviewer

National research evaluation: **VQR 2015-19 (Italian Resarch quality evaluation)**, *Referee, ERC codes: PE1_15 (Discrete mathematics and combinatorics), PE6_6 (Algorithms, distributed, parallel and network algorithms, algorithmic game theory), PE6_7 (Artificial intelligence, intellicent systems, multi agent systems), PE6_11 (Machine learning, statistical data processing and applications using signal processing (e.g., speech, image, video)*

Grants: **Chilean National Fund for Scientific and Technological Development, FONDECYT (FONDECYT-CHILE)**, *2022*

Natural Sciences and Engineering Research Council of Canada (NSRC), *2020*

IJCAI 2016, *International Joint Conference on Artificial Intelligence*

AAAI 2016, *AAAI Conference on Artificial Intelligence*

Participation to conferences and workshops

As an organizer

2024 **HEXAGON2024**, *The HEXAGON Workshop on Power Grids*, Bergamo, Italy, June 2023

As an organizer & presenter

2023 **1st International Conference on Bilevel Optimization (ICBO2023)**, *2023*, Southampton, UK

2021 **63th Annual Meeting of the Operational Research Society (OR63)**, *2021*, Online

2019 **OptML: Optimization and Machine Learning**, *2019*, Southampton, UK

2018 **W-GREENBELT 2018, Workshop on GREEN and BluE Logistics and Transport**, *2018*, Southampton, UK

2017 **International Conference on Computational Logistics**, *2017*, Southampton, UK

. **(Bilevel) Optimization, Data Analysis and Forecasting**, *2017*, Southampton, UK

With an oral/poster presentation

2026 **Learning on Graphs (LoG) Italian Meetup 2026**, *Pisa, Italy*

International Conference on Learning Representations (ICLR 2026), *Rio de Janeiro, Brazil*

3rd Workshop of UMI Group Mathematics for Artificial Intelligence and Machine Learning, *Bari, Italy*

Economics Winter Seminar 2025, *Castione della Presolana, Italy*

2024 **AAAI Conference on Artificial Intelligence (AAAI 2024)**, *Vancouver, Canada*

Economics Winter Seminar 2024, *Castione della Presolana, Italy*

2023 **Learning from Both Sides (Linear and Nonlinear Mixed-Integer Optimization)**, *2022*, Institute Mittag-Leffler, Djursholm, Sweden

2022 **33rd Annual conference of the Association of European Operational Research Societies (EURO 2022)**, *2022*, Espoo, Finland

2021 **63th Annual Meeting of the Operational Research Society (OR63)**, *2021*, Online

. **3rd IMA/OR Society Conference**, *2021*, Online

2020 **International Conference on Optimization and Decision Science (ODS)**, *2020*, Online

2019 **30th Annual conference of the Association of European Operational Research Societies (EURO 2019)**, *2019*, Dublin, Ireland

2018 **International Symposium on Mathematical Programming (ISMP)**, *2018*, Bordeaux, France

. **International Workshop on Bilevel Programming (IWOBIP)**, *2018*, Lille, France

2017 **STEM for Britain, House of Commons (Westminster)**, *2017*, London, UK

Symposium on Experimental Algorithms (SEA), *2017*, London, UK

2015 **Modeling and Optimization: Theory and Applications (MOPTA)**, *2015*, Bethlehem, US, Pennsylvania

. **International Symposium on Mathematical Programming (ISMP)**, *2015*, Pittsburgh, US, Pennsylvania

. **Symposium on Experimental Algorithms (SEA)**, *2015*, Paris, France

. **International Network Optimization Conference (INOC)**, *2015*, Warsaw, Poland

. **Conference of the French Society of Operations Research and Decision Support (ROADEF)**, *2015*, Marseille, France

2014 **Integer Programming and Combinatorial Optimization (IPCO)**, *2014*, Bonn, Germany
. **INFORMS Annual Meeting**, *2014*, San Francisco, US, California
. **International Symposium on Combinatorial Optimization (ISCO)**, *2014*, Lisbon, Portugal
. **INFORMS Telecommunications Conference**, *2014*, Lisbon, Portugal
2013 **EURO-INFORMS Joint International Meeting**, *2013*, Rome, Italy
. **Cologne-Twente Workshop on Graphs and Combinatorial Optimization (CTW)**, *2013*, Enschede, Netherlands
2012 **International Symposium on Mathematical Programming**, *ISMP*, 2012, Berlin, Germany
2011 **Cologne-Twente Workshop on Graphs and Combinatorial Optimization (CTW)**, *2011*, Rome, Italy
. **Mixed-Integer Programming Workshop (MIP)**, *2011*, Waterloo, Canada, Ontario
. **Combinatorial Optimization Workshop (COW)**, *2011*, Aussois, France
2010 **Symposium on Experimental Algorithms (SEA)**, *2010*, Naples, Italy
. **Mixed-Integer Programming Workshop (MIP)**, *2010*, Atlanta, US, Georgia
2009 **International Symposium on Mathematical Programming**, *ISMP*, 2009, Chicago, US, Illinois
2008 **Annual Conference of the Italian Operations Research Society (AIRO)**, *2008*, Naples, Italy
. **Metaheuristics International Conference (MIC)**, *2008*, Hamburg, Germany

As a delegate

2025 **9th AIRO Young Workshop**, *2025*, Pavia, IT
I acted as member for the Fedegari Best Poster Prize committee
2024 **Four Motors for Europe – Artificial Intelligence as an opportunity for**, *Four Motors for Europe – presidency handover to Lombardy*, 2024, Stuttgart, DE
2024 **Mathematics for Artificial Intelligence and Machine Learning (MATH4AI 2023)**, *2024*, Milan, Italy
2023 **Ultraoptymal Workshop**, *2023*, Bergamo, Italy
. **L'Ufficio per il Processo tra presente e futuro nell'Italia del nord-ovest**, *2023*, Turin, Italy
2022 **DSA Summer conference**, *2022*, Milan, Italy
. **Workshop on Quantum Computing and Operations Research**, *2022*, Fields Institute, Toronto (Online)
. **AI UK 2022**, *Alain Turing Institute*, 2022, ATI (Online)
2021 **Mixed Integer Programming Workshop**, *2021*, Online
2020 **Mathematical Foundations of Optimisation in Data Science, Newton Institute**, *2020*, Online
. **ISCO (International Symposium on Combinatorial Optimization)**, *2020*, Online
2016 **Annual Analytics Summit, OR Society**, *2016*, London, UK
. **First Aachen Discrete Mathematics Days**, *2016*, Aachen, Germany
. **Combinatorial Optimization Workshop (COW)**, *2016*, Aussois, France
2015 **Mixed-Integer Nonlinear Methods for Energy Systems Engineering (MINOMESE)**, *2015*, Aachen, Germany
2013 **Combinatorial Optimization Workshop (COW)**, *2013*, Aussois, France
2009 **Integer Programming and Combinatorial Optimization (IPCO)**, *2009*, Bertinoro, Italy

Public engagement

Feb 2027 Lecture *"L'intelligenza artificiale. Opportunità e rischi"*, on the evolution of AI, from symbolic AI to neural networks and large language models, hallucinations, and the risks for users, *Università Anteas* (Anteas Bergamo), Nembro (BG), 3 February 2027 (upcoming).

Oct 2026 Institutional opening as Rector's Delegate for Artificial Intelligence, giornata di studi *"Archeologie letterarie e artistiche dell'intelligenza artificiale. Ripensare l'immaginario tecnologico fra modernità e contemporaneità"*, University of Bergamo, 2 October 2026.

Sep 2026 Speaker at the XXII ACBGroup Convention, *"Etica della responsabilità, cultura economica e scenari geopolitici. Progettare il futuro tra sviluppo, impresa e contesto globale"*, Teatro Sociale, Bergamo, 25 September 2026. With Giorgio Gori (European Parliament), Ferruccio de Bortoli (journalist and essayist), Francesco Occhetta (Fondazione Fratelli tutti), and Patrizia Bussoli (Bea Finance); moderated by Giuseppe De Luca (Università degli Studi di Milano). Poster (PDF) Preview (BergamoNews) Coverage (Bergamo Tomorrow)

Sep 2026 Interview *"Intelligenza artificiale, Stefano Coniglio: «Va governata, la formazione è fondamentale»"*, *BergamoNews*, 24 September 2026. Read

Jun 2026 Talk *"Intelligenza artificiale moderna: principi, applicazioni e impatti"*, on how modern AI works, from machine learning to large language models and chatbots, with examples of use and misuse and its impact on work, at the seminar *"IA usarla per non subirla"* for the 90th anniversary of *AVIS Bergamo* (the blood donors' association), under the patronage of the University of Bergamo, Aula Castoldi (Sala Conferenze Alberto Castoldi), Sant'Agostino, University of Bergamo, 13 June 2026. For a general audience, including AVIS officers. With Chiara Ghezzi and Maria Francesca Murru (University of Bergamo); speakers coordinated by Piera Molinelli (University of Bergamo).

Jun 2026 Panelist, *"Institutional Policies and Guidelines on AI"*, *Tomorrow Today in Research Italia 2026* (Elsevier), Università Cattolica del Sacro Cuore, Milan, 11 June 2026. With Rossana Damiano (University of Turin), Cosimo Anglano (University of Piemonte Orientale), and Simona Milio (LSE); moderated by Saber Akhondi (Elsevier). Watch the panel Recordings Highlights video

May 2026 Invited talk *"Come le macchine hanno iniziato a parlare: evoluzione, potenzialità e rischi dell'IA moderna"*, conference *"Le nuove sfide dell'intelligenza artificiale. Diritto e Responsabilità"*, SACBO (Milan Bergamo Airport), 25 years after Legislative Decree 231/2001, Centro Congressi Giovanni XXIII, Bergamo, 7 May 2026. With Benedetta Galgani (University of Pisa), Silvia Bonfanti, Francesca Cerea, and Ilaria Genuessi (University of Bergamo); moderated by Roberto Magri (President, SACBO Supervisory Board). Coverage (BergamoNews)

May 2026 Invited speaker, *"Governare l'intelligenza artificiale. Riflessi di una rivoluzione su economia, lavoro, scuola e democrazia"*, Fondazione Gritti Minetti / Officina Democratica, Sala Galmozzi, Bergamo. With Anna Ascani, Simone Varva, and Silvia Patrizia Gadda.

Apr 2026 Lecture on the evolution of AI, from symbolic AI to neural networks and large language models, hallucinations, and the risks for users, *Università Anteas* (Anteas Bergamo), Teatro "Giuseppe Verdi", Bonate Sopra (BG), 15 April 2026.

Mar 2026 Talk *"Come l'IA ha iniziato a parlare: uno sguardo sull'IA moderna"*, evening meeting on artificial intelligence of the *Lions Club Clusone*, Hotel Ristorante La Bussola, Clusone (BG), 13 March 2026.

Mar 2026 Talk *"Come l'IA ha imparato a parlare: origine, evoluzione e principi di funzionamento dell'IA moderna"* at the inauguration of *SUPERCHARGED BY AI: Synthetic and out of control*, exhibition on AI-generated content (Tactical Tech / DensityDesign Lab / Politecnico di Milano), Aula Castoldi, University of Bergamo, 2 March 2026. The exhibition ran at the Biblioteca Umanistica until 15 March 2026. Event page

Feb 2026 Opening talk on AI at the ONDIF Bergamo *Question Time* for family lawyers (Osservatorio Nazionale sul Diritto di Famiglia), Wellness Café, Bergamo, 18 February 2026. With Francesca Locatelli (University of Bergamo) and Francesco Stabile; hosted by Simona Russo (ONDIF Bergamo).

Feb 2026 Speaker at the public round table *"Intelligenza artificiale: nuove professioni e mansioni robotizzate"*, organized by the Department of Economics, University of Bergamo, with the Comune di Castione della Presolana and the Associazione culturale Il Testimone, during the Department's Winter Workshop, Hotel Milano, Bratto di Castione della Presolana (BG), 10 February 2026. Introductory talk on modern AI. With Alessandra Bonfiglioli and Annamaria Bianchi (University of Bergamo). Preview (MyValley)

Feb 2026 Talk *"Come l'IA ha imparato a parlare: biografia (non autorizzata) di una disciplina scientifica"* for about 30 students, during the *cogestione* days of the *Liceo A. Einstein*, Milan, 7 February 2026. Invited with Alessandra Bonfiglioli (University of Bergamo), who gave another session.

Feb 2026 Interview *"Il professor Stefano Coniglio: «Intelligenza artificiale, Bergamo può guidare il futuro»"*, *Prima Bergamo*, 2 February 2026. Read

Jan 2026 *"Dentro l'Intelligenza Artificiale: tra promesse, limiti e realtà"*, live-streamed interview, *I venerdì dello Studio BNC* (Studio Berta, Nembrini, Colombini e Associati), Bergamo, 30 January 2026. Watch Archive

Dec 2025 TV interview *"Benvenuti in Casa CISL" — Puntata 4: Intelligenza Artificiale*, on AI for work, society, and the future, *BergamoTV / CISL Bergamo*. Watch on YouTube

Nov 2025 Three-meeting laboratory *"Intelligenza Artificiale e Grandi Modelli Linguistico-Multimodali: un'esperienza laboratoriale"* for seniors, *Anteas Bergamo* (project "Vibrazioni Positive"), Centri Terza Età of Redona, Carnovali, and Celadina, Bergamo, November 2025. Designed with Maria Francesca Murru.

Nov 2025 Talk *"Come l'IA ha imparato a pensare"*, Festa degli Ingegneri 2025, Ordine degli Ingegneri della Provincia di Bergamo, Nembro (BG), 6 November 2025. Event page Coverage (BergamoNews)

Oct 2025 Video interview on artificial intelligence with Daniele Toninelli for the Master *Data Analyst per Decisioni Strategiche* (DADS), University of Bergamo. Watch on YouTube

May 2025 Keynote *"Una prospettiva sull'IA moderna verso (e oltre) il software 2.0"*, convegno *"Il valore dei dati e dell'intelligenza artificiale per la gestione degli asset industriali"*, Master MeGMI 2025 (UniBg School of Management and POLIMI Graduate School of Management), ChorusLife, Bergamo, 14 May 2025. Moderated by Emanuele Dovere and Marco Macchi. Covered by *L'Eco di Bergamo* (16 May 2025) and *BergamoNews* (15 May 2025).

May 2025 Seminar *"Tutto quello che avreste voluto sapere sull'AI ma non avete mai osato chiedere"*, orientation event for the new curriculum "Informazione e culture dei dati" (MSc in Comunicazione, informazione, editoria), University of Bergamo, 6 May 2025. With Giorgio Avezzù, Adriano D'Aloia, Mehdi Hosseinzadeh, Arianna Mainardi, Maria Francesca Murru, and Francesca Pasquali. Poster (PDF)

Apr 2025 Panelist, *"Innovazione e sviluppo del territorio"*, XX Congresso Territoriale CISL Bergamo. Contribution: *"Uno sguardo sull'IA moderna"*. With Giorgio Gori (European Parliament), Claudia Terzi (Regione Lombardia), and Maria Paola Esposito (Camera di Commercio di Bergamo); moderated by Silvana Galizzi (*L'Eco di Bergamo*), Bergamo, 11 April 2025. Watch on YouTube

Apr 2025 Interview *"IA molto potente ma poco sagace. Noi serviamo competenti e critici"*, *L'Eco di Bergamo*, Sunday supplement "Intelligente ma non troppo", 6 April 2025, pp. 18–19 (print edition).

Mar 2025 Invited talk *"Evoluzione tecnologica, opportunità e rischi dell'intelligenza artificiale moderna"*, convegno *"Arbitrato e intelligenza artificiale"*, Camera Arbitrale di Bergamo and Ordine degli Avvocati di Bergamo, Sala Sestini, Palazzo dei Contratti e delle Manifestazioni, Bergamo, 7 March 2025. With Niccolò Abriani (University of Florence), Carlo Rasia (University of Bologna), Roberto Ferretti (Ca' Foscari University of Venice), and Paolo Pozzetti; moderated by Enzo Adamo (President, Camera Arbitrale di Bergamo). Poster (PDF) Event page

Mar 2025 Moderated roundtables "IA e Creatività" and "IA e Salute", 2nd Workshop di Ricerca sull'IA, University of Bergamo.

Feb 2025 Invited seminar *"Uno sguardo (e forse una piccola lezione) sull'intelligenza artificiale"*, Assemblea autogestita degli studenti del Liceo Scientifico Mascheroni, Bergamo, 4 February 2025.

Dec 2024 Seminar *"Uno sguardo sull'intelligenza artificiale: verso il declino dei metodi logico-simbolici e l'egemonia del connessionismo"*, ciclo di seminari filosofici "Per un'ecologia della mente", University of Bergamo, 10 December 2024. Poster (PDF)

Oct 2024 Speaker at *"CINEMA.I. L'intelligenza artificiale sul grande schermo"* (CINEMA DOCET), screening of *Terminator 2: Judgment Day* and discussion, University of Bergamo, 17 October 2024. With Gabriele Torri and Gabriele Ferretti. Poster (PDF) Event page

Oct 2024 Interviewee on AI at *"Look4ward – Build Your Future: I trend e le competenze di domani"*, organized by Intesa Sanpaolo and the University of Bergamo within Look4ward, Intesa Sanpaolo's observatory on the skills of the future: how the blue economy, artificial intelligence, the space economy, and the ecological transition are creating new economic models, and which skills young people will need. Aula Magna di Sant'Agostino, University of Bergamo, 9 October 2024, 16:00, with more than 450 students. Opened by Elisa Zambito Marsala (Head of Education Ecosystem and Global Value Programs, Intesa Sanpaolo) and Rector Sergio Cavalieri; moderated by Janina Landau (*Milano Finanza* and Class CNBC) and Elia Bombardelli (content creator and mathematics teacher). With Federica Origo, Giovanna Barigozzi, Maria Francesca Murru, and Giovanna Campopiano (University of Bergamo). Event (Intesa Sanpaolo)

Sep 2024 Scientific match *"Nella scienza ci vuole intelligenza (artificiale): match scientifico UniBg vs UniSR"*, MEETmeTONIGHT and BergamoScienza, European Researchers' Night, Milano, 27 September 2024. With Davide Vignale (Università Vita-Salute San Raffaele); moderated by Luca Perri (BergamoScienza). Watch on YouTube Programme

Sep 2024 Organized and moderated the *Workshop di Ricerca sull'IA*, including the roundtable "IA e Creatività", University of Bergamo, 12 September 2024. Poster (PDF)

Jul 2024 Organized, moderated, and presented at the launch of the white paper *"Intelligenza artificiale: un'agenda di ricerca"* (Tavolo Interdipartimentale sull'IA), Sala Galeotti, University of Bergamo, 4 July 2024; talk *"Questioni definitorie in prospettiva storica"*. With Maria Francesca Murru, Francesca Cerea, Federico Leo Redi, Giuseppe Previtali, Hagen Lehmann, Roberto Sala, and Gabriele Torri. Poster (PDF)

Apr 2024 Moderated and presented at the workshop *"L'intelligenza artificiale e la sfida delle competenze: ridefinizione del lavoro e dei saperi"*, closed-door workshop with local stakeholders, Bergamo Next Level, Bergamo, 18 April 2024. Co-moderated with Maria Francesca Murru and Gabriele Torri.

Apr 2024 Took part in the working table on artificial intelligence at the handover of the Four Motors for Europe presidency from Baden-Württemberg to Lombardy, Stuttgart, 11–12 April 2024, with Flaminia Nicora (Pro-Rector for International Relations, University of Bergamo). Coverage (Lombardia Quotidiano)

Written contributions for the general public

2024 "Riflessioni sulle intelligenze artificiali generative." In *Intelligenza artificiale: una complessa trasformazione tra opportunità, gestione dei rischi e sviluppo reale.* Volume curato da PWC, Confindustria Bergamo, UniBg e Intesa SanPaolo.

2024 "Questioni definitorie in prospettiva storica." In Murru, M.F. (Ed.), *Intelligenza artificiale: un'agenda di ricerca.* White paper del Tavolo Interdipartimentale sull'Intelligenza Artificiale, Università degli Studi di Bergamo.

Professional training

Sep 2026 Three-hour training session *"Come l'IA ha iniziato a parlare: una sguardo storico-scientifico sull'IA moderna"* for teaching staff, **Centro Scolastico La Traccia**, Calcinate (BG), 3 September 2026.

Jul 2026 AI session at the two-day general council (*Consiglio Generale*) of **Femca CISL Bergamo**, for about 60 workplace union representatives from the fashion, chemical, energy, gas and water, and rubber and plastics sectors: how AI is entering daily life and work, its organizational, economic, and employment impact, and its risks and benefits (about 2.5 hours, with discussion). Abbazia di San Paolo d'Argon (BG), 9 July 2026. The legal part (AI Act, GDPR, workers' rights) was given by Francesca Cerea (University of Bergamo).

Jul 2026 Seminar *"ChatGPT e dintorni: advanced (Parte 2)"* (2 hours), third and last of my seminars in the university-wide training cycle *"ChatGPT e dintorni"* for faculty, researchers, and PhD students, organized by CQIIA Faculty Development and the Task Force on AI, **University of Bergamo**; it took up the questions left open by the advanced session. Caniana campus and online, 3 July 2026.

Jun 2026 Invited speaker, workshop *"Diritto di famiglia e I.A. Dalle basi alla pratica. Atti processuali e negoziazione"*, **ONDIF Bergamo** (Osservatorio Nazionale sul Diritto di Famiglia) and Department of Law, University of Bergamo: two four-hour afternoons, 5 and 19 June 2026 (14:30–18:30), accredited with 6 training credits for lawyers. With Francesca Locatelli (University of Bergamo) and Francesco Stabile; moderated by Simona Russo (President, ONDIF Bergamo). Poster

Jun 2026 Seminar *"ChatGPT e dintorni: advanced"* (2 hours), second of my seminars in the training cycle *"ChatGPT e dintorni"*, organized by CQIIA Faculty Development and the Task Force on AI, **University of Bergamo**. Via Moroni campus and online, 12 June 2026.

Jun 2026 Two-hour session on ChatGPT and ChatGPT Edu (how ChatGPT works, with its potential and risks; models and tools; personalization, memories, and custom instructions; writing with ChatGPT) in the course *"Corso di formazione sulla protezione dei dati nell'utilizzo dell'intelligenza artificiale"* for the technical and administrative staff holding ChatGPT Edu licences, **University of Bergamo** (Data Protection Service and Task Force on AI, with CQIIA and the Ufficio Formazione e Welfare), 4 June 2026. The first part, on data protection, was given by the Data Protection Officer's office.

May 2026 Seminar *"ChatGPT e dintorni: essentials"* (2 hours), opening the university-wide training cycle *"ChatGPT e dintorni"* on ChatGPT and related tools for teaching and everyday academic work, organized by CQIIA Faculty Development and the Task Force on AI, **University of Bergamo**. Via Moroni campus and online, 27 May 2026.

Mar 2026 Seminar on AI, **ITEMA AI Academy** (Itema Group, third year of the Academy), Colzate (BG), 6 March 2026.

Feb–May 2026 AI courses for secondary-school teachers (licei, technical and vocational institutes), five groups of 12 hours each, on using AI for differentiated instruction in the classroom, **Istituto Centro Studi Leonardo da Vinci**, Bergamo, February–May 2026.

Dec 2025 Invited lecture on artificial intelligence for coordinatori RLS, **FNP CISL Bergamo** (Federazione Nazionale Pensionati CISL), Bergamo.

Nov–Dec 2025 20-hour course *"Strumenti I.A. per le aziende: fondamenti"* for the staff of **CISL Bergamo**, November–December 2025.

Nov 2025 Training course on algorithmic optimization for **Eni**: three full days (6 hours per day), 14, 21, and 28 November 2025.

2025 AI module in the training course for trade-union representatives of **CISL Bergamo**, Olera (BG), 2025.

Feb 2025 Invited seminar *"Com'è nata l'IA? Uno sguardo (e forse una piccola lezione) sulla natura e l'evoluzione dell'Intelligenza Artificiale"*, **Banca Intesa SanPaolo**, Milano, 10 February 2025.

Media coverage

26 Sep 2026 *Bergamo Tomorrow*: "Gori alla Convention ABC: «L'Europa deve scegliere il proprio futuro»". Report on the XXII ACBGroup Convention, quoting my talk on generative AI and its three risks: hallucinations, deskilling, and loss of control. Read

24 Sep 2026 *BergamoNews*: "Intelligenza artificiale, Stefano Coniglio: «Va governata, la formazione è fondamentale»". Interview. Also summarized by *AmeVe Blog*, 24 September 2026: "AI e lavoro: Coniglio analizza rischi e governance a Bergamo" and "Coniglio: «L'IA è una rivoluzione da governare con la formazione»". Read

23 Sep 2026 *BergamoNews*: "Al Teatro Sociale un «Laboratorio di futuro»: lo sguardo dei professionisti tra sviluppo, impresa e contesto globale". Preview of the XXII ACBGroup Convention at the Teatro Sociale (25 September 2026), with me among the speakers. Read

11 Jun 2026 *Elsevier* (video): Round table "Institutional Policies and Guidelines on AI" — Tomorrow Today in Research Italia 2026. Panel with Rossana Damiano (University of Turin), Cosimo Anglano (University of Piemonte Orientale), and Simona Milio (LSE); moderated by Saber Akhondi (Elsevier). Università Cattolica del Sacro Cuore, Milan. Highlights · All recordings Watch

7 May 2026 *BergamoNews*: "L'IA nel trasporto aereo, il convegno di Sacbo". Report on SACBO's conference on AI, law, and responsibility, 25 years after Legislative Decree 231/2001, including my talk "Come le macchine hanno iniziato a parlare". Also covered by Bergamo Tomorrow and MD80. Read

2 Feb 2026 *Prima Bergamo*: "Il professor Stefano Coniglio: «Intelligenza artificiale, Bergamo può guidare il futuro»". Interview. Read

Jan 2026 *Studio BNC* (video): "Dentro l'Intelligenza Artificiale: tra promesse, limiti e realtà". Live-streamed interview, *I venerdì dello Studio BNC* (Studio Berta, Nembrini, Colombini e Associati), Bergamo. Archive Watch

19 Dec 2025 *BergamoTV / CISL Bergamo* (video): "Terza età e tecnologia. Opportunità e rischi dell'intelligenza artificiale". Episode 4 of *Benvenuti in Casa CISL*: TV interview on AI for work, society, and the future. Watch

8 Nov 2025 *BergamoNews*: "Oltre 300 professionisti alla Festa degli Ingegneri 2025". Report on the Festa degli Ingegneri 2025, quoting my talk on AI moving «dall'automazione del pensiero all'automazione dell'automazione». Preview: MyValley. Read

Nov 2025 *L'Eco di Bergamo*: Festa degli Ingegneri 2025 — "Intelligenza Artificiale: Innovazione Tecnica e Responsabilità Etica". Event listing for my talk on the historical and technical evolution of AI, Ordine degli Ingegneri della Provincia di Bergamo, Nembro, 6 November 2025. Read

Oct 2025 *University of Bergamo* (video): Video interview on AI — Data Analyst per Decisioni Strategiche (DADS). Interview with Prof. Daniele Toninelli on artificial intelligence for data-driven decisions. Watch

11 Apr 2025 *CISL Bergamo* (video): Panel "Innovazione e sviluppo del territorio" — XX Congresso Territoriale CISL Bergamo. With Giorgio Gori (MEP), Claudia Terzi (Regione Lombardia), and Maria Paola Esposito (Camera di Commercio Bergamo); moderated by Silvana Galizzi (*L'Eco di Bergamo*). Watch

6 Apr 2025 *L'Eco di Bergamo*: "IA molto potente ma poco sagace. Noi serviamo competenti e critici". Interview, Sunday supplement *"Intelligente ma non troppo"*, pp. 18–19. Print edition, available in the L'Eco di Bergamo digital archive.

10 Mar 2025 *L'Eco di Bergamo*: "L'Intelligenza Artificiale e i suoi ambiti di sviluppo". Feature on AI research at the University of Bergamo (Universo Bergamo), mentioning my work with IIT and the University of Milano-Bicocca on DLGNet, a neural network that classifies chemical reactions. Read

27 Sep 2024 *MEETmeTONIGHT* (video): "Nella scienza ci vuole intelligenza (artificiale)" — MEETmeTONIGHT 2024. Scientific match UniBg vs UniSR with Davide Vignale, moderated by Luca Perri (BergamoScienza), European Researchers' Night. Previews: BergamoNews · L'Eco di Bergamo. Watch

15 Apr 2024 *Lombardia Quotidiano*: "Quattro Motori d'Europa: Presidenza alla Lombardia". Coverage of the Four Motors of Europe presidency handover in Stuttgart (12 April 2024), where the University of Bergamo contributed to the discussion on AI as a priority for European inter-regional cooperation. Read

26 Jan 2021 *University of Southampton* (video): MSc programs in Operational Research at the University of Southampton. What operational research is, where it is used, and what the MSc programs offer: modules, case-study projects with companies, and career opportunities. Watch

Administrative service

2026– **Member of the Scientific and Technical Committee**, *RAISE – Research Centre for Responsible Artificial Intelligence, Society and Ethics*, University of Bergamo

2025– **Member of the doctoral board and curriculum coordinator**, *PhD in Artificial Intelligence for Sustainable Futures*, University of Bergamo
Co-designed the PhD programme; responsible for the curriculum "Participatory development of AI models, methods and applications"

2023–25 **Member of the doctoral board**, *PhD in Economics*, University of Bergamo
March 2023–April 2025

2023– **Member of the University of Bergamo's Interdisciplinary Working Group on Artificial Intelligence (Tavolo di lavoro interdisciplinare sull'intelligenza artificiale dell'Università di Bergamo)**, University of Bergamo, (https://www.unibg.it/node/16191)

2023– **BSc Dissertation Officer**, University of Bergamo
Worked on improving procedures for supervisor allocation and on the technical integration of grade entry with ESSE3 (Cineca)

Member of the working group on university guidelines for the adoption of artificial intelligence, *Guidelines for students, faculty/researchers, and technical-administrative staff*, University of Bergamo

Member of technical evaluation group, *Procurement of university chatbot/LLM licences*, University of Bergamo

Member of technical evaluation group, *Procurement of a new student-services ticketing system*, University of Bergamo

2022–25 **TOLC examination commissioner**, *Three examination sessions*, University of Bergamo

2018–2022 **MSc Admission Officer**, *MSc programs: Operational Research, Operational Research & Finance, Operational Research & Statistics, Data and Decision Analytics*, University of Southampton

2017–18 **MSc Exam Officer**, *MSc programs: Operational Research, Operational Research & Finance, Operational Research & Statistics*, University of Southampton

2016–17 **Deputy Ethics Officer**, *Department of Mathematical Sciences*, University of Southampton

Teaching innovation projects

Project lead and budget holder, *Tecnologie avanzate per la didattica nei corsi di informatica (86038) e di supporto ai corsi offerti dal Dipartimento di Scienze Economiche alla L-33*, University of Bergamo
Awarded through a competitive internal call

Honors and awards

2021 **Paper in the "Selection of most cited papers" on EJCO**, *paper title: "Bilevel programming methods for computing single-leader-multi-follower equilibria in normal-form and polymatrix games"*, published on EURO Journal on Computational Optimization

2017 **STEM for Britain**, *Selected for "STEM for Britain" poster competition among early-career researchers at the House of Commons (Westminster), London, UK*

2008–10 **PhD scholarship**, *(1st classified over more than 80 applicants at Dipartimento di Elettronica e Informazione, Politecnico di Milano)*, granted by MIUR (Italian Ministry for University and Research)

2002–07 **BSc and MSc student scholarships**, *reduced student tuition fees (each eligible year) for merit*

Teaching experience (as instructor/lecturer)

2026–27 **Master LEAD-PA: Management, innovazione, leadership e digitalizzazione delle amministrazioni pubbliche**, *Instructor*, AI lecture, III edition, University of Bergamo

. **AI lecture for a delegation from China**, *Instructor*, 3 hours, with Italian–Chinese interpretation, 22 September 2026, School of Management, University of Bergamo
Training programme on digital transformation, smart manufacturing, and the industrial internet

2025–26 **Neural Networks and Deep Learning**, *Instructor & module leader*, 48 hours, with $\simeq$ 30 MSc of Economics and Data Analysis, University of Bergamo
Topics: history of AI, foundations of neural networks and deep learning, backpropagation, feedforward neural networks, recurrent neural networks, convolutional and graph-covolutional neural networks, variational autoencoders, large language models and generative AI

. **Intelligenza Artificiale per la Comunicazione**, *Instructor & module leader*, 38 hours with $\simeq$ 80 Msc students of Comunicazione, Informazione ed Editoria, University of Bergamo
Topics: foundations of AI, history of AI, agentic modeling and reasoning, search problems and algorithms, neural networks and deep learning, large language models and generative AI

. **INFORMATICA 86038**, *Instructor & module leader*, 48 hours with $\simeq$ 350 BSc students of Economics and Management, University of Bergamo
Topics: history of computer science, Boolean algebra and circuit synthesis, information representation, spreadsheets, databases, Python programming

. **Soft & Digital Skills**, *Instructor*, 6 hours, BSc in Economics, University of Bergamo

. **Soft & Computational Skills**, *Instructor*, 6 hours, MSc in Economics and Data Analysis, University of Bergamo

. **Master Data Analyst per Decisioni Strategiche (DADS)**, *Instructor*, 8 hours, University of Bergamo
Topics: Intelligenza Artificiale: evoluzione, princìpi, strumenti

. **Master LEAD-PA: Management, innovazione, leadership e digitalizzazione delle amministrazioni pubbliche**, *Instructor*, AI lectures, including AI and data analysis (with D. Toninelli), University of Bergamo

. **Fondamenti Scientifico informatici dell'intelligenza artificiale (Scientific and Computer Science Foundations of Artificial Intelligence)**, *Instructor*, 20 hours, PhD in Artificial Intelligence for Sustainable Futures, University of Bergamo
Topics: overview of the key aspects of modern artificial intelligence and deep learning

. **Inside Artificial Intelligence: Power, Limits, and Societal Impact**, *Instructor*, online lecture in English for prospective international students, with Docsity, 30 October 2025, University of Bergamo
Topics: modern AI, neural networks and large language models, their risks, and their impact on studying
Recording

2024–25 **Neural Networks and Deep Learning**, *Instructor & module leader*, 48 hours, with $\simeq$ 30 MSc of Economics and Data Analysis, University of Bergamo
Topics: history of AI, foundations of neural networks and deep learning, backpropagation, feedforward neural networks, recurrent neural networks, convolutional and graph-covolutional neural networks, variational autoencoders, large language models and generative AI

. **Intelligenza Artificiale per la Comunicazione**, *Instructor & module leader*, 38 hours with $\simeq$ 80 Msc students of Comunicazione, Informazione ed Editoria, University of Bergamo
Topics: foundations of AI, history of AI, agentic modeling and reasoning, search problems and algorithms, neural networks and deep learning, large language models and generative AI

. **INFORMATICA 86038**, *Instructor & module leader*, 48 hours with $\simeq$ 350 BSc students of Economics and Management, University of Bergamo
Topics: history of computer science, Boolean algebra and circuit synthesis, information representation, spreadsheets, databases, Python programming

. **Soft & Digital Skills**, *Instructor*, 6 hours, BSc in Economics, University of Bergamo

. **Soft & Computational Skills**, *Instructor*, 6 hours, MSc in Economics and Data Analysis, University of Bergamo

. **Master Data Analyst per Decisioni Strategiche (DADS)**, *Instructor*, 4 hours, University of Bergamo
Topics: artificial intelligence and generative AI

2023–24 **INFORMATICA 86038 & 87111**, *Instructor & module leader*, 48 hours (twice) with $\simeq$ 150 BSc students of Economics and Management, University of Bergamo
Topics: history of computer science, Boolean algebra and circuit synthesis, information representation, spreadsheets, databases, Python programming

. **CREO LAB Tecnologie digitali e intelligenza artificiale**, *Round-table speaker*, with A. Ferramosca and M. F. Murru, for master's students, 6 April 2024, University of Bergamo, Dalmine
CREO programme of entrepreneurship education

2022–23 **INFORMATICA 86038 & 87111**, *Instructor & module leader*, 48 hours (twice) with $\simeq$ 150 BSc students of Economics and Management, University of Bergamo
Topics: history of computer science, Boolean algebra and circuit synthesis, information representation, spreadsheets, databases

2021–22 **MATH2014: Algorithms**, *Instructor & module leader*, 48 hours with $\sim$ 80 BSc students of Mathematics, University of Southampton
Topics: Spanning Trees, Shortest Paths, Network Flows, Bipartite Matchings, Computational Complexity, $\mathcal{NP}$-Hardness and Approximability, Dynamic Programming

., *(sabbatical in Sem I)*

Combinatorial Optimization, NATCOR, *Course co-leader and co-instructor*, $\sim$ 50 PhD students, University of Southampton (virtual)
Topics: Integer programming and norm minimization for machine learning, modeling techniques for integer programming, Lagrangian relaxations

2020–21 **MATH1058: Operational Research I and Mathematical Computing**, *Co-instructor & module leader*, 30 hours with $\sim$ 160 BSc students of Mathematics, University of Southampton
Topics: Sorting Algorithms, Computational Complexity, Dijkstra's algorithm, Critical Path Method, Linear Programming, Simplex Method

MATH2014: Algorithms, *Instructor & module leader*, 48 hours with $\sim$ 80 BSc students of Mathematics, University of Southampton
Topics: Spanning Trees, Shortest Paths, Network Flows, Bipartite Matchings, Computational Complexity, $\mathcal{NP}$-Hardness and Approximability, Dynamic Programming

2019–20 **MATH1058: Operational Research I and Mathematical Computing**, *Co-instructor & module leader*, 30 hours with ∼ 160 BSc students of Mathematics, University of Southampton
Topics: Sorting Algorithms, Computational Complexity, Dijkstra's algorithm, Critical Path Method, Linear Programming, Simplex Method

MATH2014: Algorithms, *Instructor & module leader*, 48 hours with ∼ 80 BSc students of Mathematics, University of Southampton
Topics: Spanning Trees, Shortest Paths, Network Flows, Bipartite Matchings, Computational Complexity, $\mathcal{NP}$-Hardness and Approximability, Dynamic Programming

Combinatorial Optimization, NATCOR, *Co-instructor*, ∼ 50 PhD students, University of Southampton
Topics: Integer programming and norm minimization for machine learning

2018–19 **MATH1058: Operational Research I and Mathematical Computing**, *Co-instructor & module leader*, 30 hours with ∼ 160 BSc students of Mathematics, University of Southampton
Topics: Sorting Algorithms, Computational Complexity, Dijkstra's algorithm, Critical Path Method, Linear Programming, Simplex Method

MATH2014: Algorithms, *Instructor & module leader*, 48 hours with ∼ 80 BSc students of Mathematics, University of Southampton
Topics: Spanning Trees, Shortest Paths, Network Flows, Bipartite Matchings, Computational Complexity, $\mathcal{NP}$-Hardness and Approximability, Dynamic Programming

2017–18 **MATH1058: Operational Research I and Mathematical Computing**, *Co-instructor & module leader*, 30 hours with ∼ 160 BSc students of Mathematics, University of Southampton
Topics: Sorting Algorithms, Computational Complexity, Dijkstra's algorithm, Critical Path Method, Linear Programming, Simplex Method

MATH2014: Algorithms, *Instructor & module leader*, 48 hours with ∼ 80 BSc students of Mathematics, University of Southampton
Topics: Sorting Algorithms, Spanning Trees, Shortest Paths, Network Flows, Bipartite Matchings, Computational Complexity, $\mathcal{NP}$-Hardness and Approximability

MATH2013: Introduction to Operational Research, *Co-instructor & module co-leader*, ∼ 60 BSc students of Mathematics, University of Southampton
Topics: Linear and Integer Programming, Simplex Method, Project Networks, Inventory Control

2016–17 **MATH2014: Algorithms**, *Instructor & module leader*, 48 hours with ∼ 80 BSc students of Mathematics, University of Southampton
Topics: Sorting Algorithms, Spanning Trees, Shortest Paths, Network Flows, Bipartite Matchings, Computational Complexity, $\mathcal{NP}$-Hardness and Approximability

2015–16 **MATH2014: Algorithms**, *Co-instructor (with Prof. C. Potts)*, 24 hours with ∼ 80 BSc students of Mathematics, University of Southampton
Topics: Network Flows, Bipartite Matchings, Computational Complexity, $\mathcal{NP}$-Hardness and Approximability

2015–16 **Optimization B**, *Co-instructor (with Prof. A. Koster)*, 20 hours with ∼ 40 BSc/MSc students of Mathematics, RWTH Aachen University
Topics: Shortest paths, Linear Programming with TUM and TDI formulations, Bipartite and Nonbipartite Matchings

2011–12 **Foundations of Operations Research & module leader**, *Instructor*, 45 hours with ∼ 100 MSc students of Computer Science Engineering, Politecnico di Milano, Como Campus
Topics: Shortest paths, Spanning Trees, Network flows, Linear Programming, Mixed-Integer Linear Programming

Teaching experience (as teaching assistant)

2014–15 **Integer Linear Optimization**, *Teaching assistant (course tutor, homework grading)*, MSc students of Mathematics, RWTH Aachen University

2012–13 **Optimization B**, *Teaching assistant (course tutor, homework grading)*, BSc/master students of Mathematics, RWTH Aachen University

2010–11 **Optimization**, *Teaching assistant (course and lab demonstrations tutor)*, MSc students of Computer Science Engineering and Mathematical Engineering, Politecnico di Milano

Foundations of Operations Research, *Teaching assistant (course and lab demonstrations tutor)*, MSc students of Computer Science Engineering and Mathematical Engineering, Politecnico di Milano

2009–10 **Optimization**, *Teaching assistant (course and lab demonstrations tutor)*, MSc students of Computer Science Engineering and Mathematical Engineering, Politecnico di Milano

Operations Research, *Teaching assistant (course tutor)*, BSc students of Computer Science Engineering, Politecnico di Milano, Como campus

2008–09 **Fundamentals of Operations Research D**, *Teaching assistant (lab demonstrations tutor)*, BSc students of Computer Science Engineering, Politecnico di Milano, Como Campus

Fundamentals of Operations Research D-E, *Teaching assistant (course tutor)*, BSc students of Computer Science Engineering, Politecnico di Milano

2007–08 **Fundamentals of Operations Research D**, *Teaching assistant (lab demonstrations tutor)*, BSc students of Computer Science Engineering, Politecnico di Milano, Como Campus

Complements of Operations Research, *Teaching assistant (lab demonstrations tutor)*, MSc students of Computer Science Engineering and Mathematical Engineering, Politecnico di Milano

Fundamentals of Operations Research D-E, *Teaching assistant (lab demonstrations tutor)*, MSc students of Computer Science Engineering, Politecnico di Milano

Supervised students awards

2022 **CORMSIS Summer Project Prize**, *University of Southampton*, R. Anand
2021 **CORMSIS Summer Project Prize**, *University of Southampton*, Q. Du
2020 **CORMSIS Summer Project Prize**, *University of Southampton*, M.E. Voss, A. Inaba, X.-W. Teh
2019 **CORMSIS Summer Project Prize**, *University of Southampton*, S.Y. Chin and Z. Xue
2018 **CORMSIS Summer Project Prize**, *University of Southampton*, M. Orderud
2017 **CORMSIS Summer Project Prize**, *University of Southampton*, C. Velez
2016 **CORMSIS Summer Project Prize**, *University of Southampton*, K. Roy

Supervision of postdoctoral researchers

2024–26 **G. Andreana**, *University of Bergamo*
2024–25 **C. Tomasi**, *University of Bergamo*
2020–22 **F. Garuba**, *University of Southampton*
2020–20 **P.M. Bartmeyer**, *University of Southampton*

Supervision of PhD students (graduated)

2022–2026 **D. Benfield**, *University of Southampton*
(co-supervision (33%) with A. Zemkoho and V. Phan)

2022–2026 **M. Jaidee**, *University of Southampton*
(co-supervision (50%) with H. Qi)

2019–2023 **M.A. Alammar**, *University of Southampton*
(co-supervision (30%) with C. Potts and A. Martinez-Sykora)

2018–2023 **A.J. Dunn**, *University of Southampton*
(co-supervision (40%) with A. Zemkoho and H. Qi)

2018–2022 **J.B. Badrodin**, *University of Southampton*
(co-supervision (50%) with H. Qi)

2017–2022 **K.-M. Steinborn-Busse**, *University of Southampton*
(co-supervision (50%) with J. Fliege)

2016–21 **R. Walton**, *University of Southampton*
(co-supervision (50%) with J. Fliege)

Supervision of PhD students (ongoing)

2026– **A. Abedi**, *University of Bergamo*
PhD in Artificial Intelligence for Sustainable Futures

2026– **M. Zubani**, *University of Bergamo*
PhD in Artificial Intelligence for Sustainable Futures

2025– **F. Belotti**, *University of Bergamo*
PhD in Artificial Intelligence for Sustainable Futures

MSc/BSc student supervision (dissertations)

2026– **2 graduating in October 2026, 11 more in preparation**, *University of Bergamo*, E. Fuoco (BSc), D. Vavassori (MSc, co-supervised by F. Belotti)
(supervisor)

2026 **2 Master students (project work)**, *University of Bergamo*, R. D'Atri, S. Colombo (Master LEAD-PA)
(supervisor)

2026 **1 MSc student**, *University of Bergamo*, F. Florio (Comunicazione, Informazione, Editoria)
(co-supervision with T. Trebucchi)

2025–26 **5 MSc students**, *University of Bergamo*, D. Perico, R. Vallenzasca (2025); L. Sanna, G. Alfarano, A. Baccanelli (2026)
(supervisor; A. Baccanelli co-supervised by M.F. Murru)

2023–26 **7 BSc students (final reports)**, *University of Bergamo*, D. Pulimeno (2023), E. Salvioni (2024), S. Milesi, M. Lacco, L. Morotti, F. Cattaneo, R. Sacchi (2026)
(supervisor)

2021–22 **5 MSc students**, *University of Southampton*, R. Anand, A. Arora, L. Main, S. Crofts, J. Rapley
(single supervisor)

2020–21 **7 MSc students**, *University of Southampton*, Z. Chen, Q. Du, R. Jain, L. Moore, T. Boivert, S. Wang, T. Wu
(single supervisor)

2019–20 **4 MSc students**, *University of Southampton*, M. Maliali, A. Inaba, X.-W. Teh, M.E. Voss
(single supervisor)

2018–19 **1 Visiting MSc student**, *University of Southampton/University of Pavia*, L. Muffone
(single supervisor)

3 MSc students, *University of Southampton*, S.-Y. Chin, Z. Fei, Z. Xue
(single supervisor)

2017–18 **3 MSc students**, *University of Southampton*, M. Orderud, Z. Luu, Q. Wu
(single supervisor)

2016–17 **3 MSc students**, *University of Southampton*, C. Liu, G. Oyasor, C. Velez
(single supervisor)

2015–16 **2 MSc students**, *University of Southampton*, K. Roy, C. Ma
(single supervisor)

2009–16 **3 MSc students**, *Politecnico di Milano*, A. Nicotra, C. Ileri, D. Cardana
(co-supervision with E. Amaldi)

2015 **1 MSc student**, *RWTH Aachen University*, J. Rosendahl
(co-supervision with A. Koster)

2009–16 **3 MSc students**, *Politecnico di Milano*, A. Marchesi, S. Corti, A. Perrucci
(co-supervision with N. Gatti)

2008–12 **7 BSc students**, *Politecnico di Milano*, A. Nicotra, M. Mazzoni, G. Personeni, I. Catallo, S. Celentano, F. Cardellini, E. Cereda
(co-supervision with E. Amaldi)

Students supervision (within taught courses)

2020–21 **MATH6145: Presenting Reports**, University of Southampton
Supervisor of 10 MSc students on researching, writing, and presenting a report on aspects of Operations Research and Machine Learning

2020–21 **MATH3092: Mathematics Project (MMATH)** , University of Southampton
Supervisor of a 4th year BSc student (A. Rose) working on solving the hyperplane-clustering problem

2020–21 **MATH3092: Mathematics Project**, University of Southampton
Supervisor of six BSc students working on modeling and solving diet problems with mathematical programming

2019–20 **MATH6145: Presenting Reports**, University of Southampton
Supervisor of six MSc students on researching, writing, and presenting a report on aspects of Operations Research and Machine Learning

2018–19 **MATH3032: Mathematical Investigation and Communication (MIC)**, University of Southampton
Supervisor of six BSc students working on modeling and solving diet problems with mathematical programming

2017–18 **MATH6145: Presenting Reports**, University of Southampton
Supervisor of three MSc students on researching, writing, and presenting a report on aspects of Operations Research

MATH3032: Communicating and Researching Mathematics (CRM), University of Southampton
Supervisor of four BSc students working on topics of network traffic estimation

2016–17 **MATH6145: Presenting Reports**, University of Southampton
Supervisor of three MSc students on researching, writing, and presenting a report on aspects of Operations Research

MATH3032: Communicating and Researching Mathematics (CRM), University of Southampton
Supervisor of three BSc students working on topics of Robust Optimization

2015–16 **MATH6145: Presenting Reports**, University of Southampton
Supervisor of three MSc students on researching, writing, and presenting a report on aspects of Operations Research

MPhil/PhD students examination

2026 **PhD dissertation committee member**, *Lehigh University*, Industrial and Systems Engineering

2026 **PhD examination committee member**, *University of Parma*, Information Technologies, 38th cycle; final examination committee

2024 **PhD examination committee member**, *University of Pavia*, Mathematics; final examination of S. Milanesi and M.L. Trezzi

2024 **PhD examination committee member**, *University of Pavia*, Computational Mathematics, Learning and Data Science; final examination committee

2024–25 **PhD examination committee member**, *TU Berlin*, L. Eifler (PhD student in Mathamatics)

2022–23 **PhD examination committee member**, *University of Milano-Bicocca*, D. Marelli, F. Adobbati, L. Guglielmo, E. Kurian, M. Saletta (PhD students in Computer Science)

2022–23 **External examiner for PhD thesis viva/defense**, *University of Pavia*, A. Codegoni (PhD student in Computational Mathematics and Decisions Sciences)

2021–22 **External examiner for PhD thesis viva/defense**, *University of Technology of Compiegne*, C. Wang (PhD student in Informatics)

Internal examiner for MPhil thesis viva/defense, *University of Southampton*, H. Hall (MPhil student in Operational Research)

Independent chair for PhD thesis viva/defense, *University of Southampton*, G. Yim (PhD student in Applied Mathematics and Theoretical Physics)

2020–21 **Internal examiner for PhD thesis viva/defense**, *University of Southampton*, Y. Zhang (PhD student in Operational Research)

2019–20 **Internal examiner for PhD thesis viva/defense**, *University of Southampton*, M. Benedek (PhD student in Operational Research)

2018–19 **Internal examiner for PhD thesis viva/defense**, *University of Southampton*, A. Robins (PhD student in Operational Research)

Internal examiner of PhD thesis viva/defense, *University of Southampton*, S. Zhou (PhD student in Operational Research)

Independent assessor for 1st year review, *University of Southampton*, L.-C. Dinh (PhD student in Computer Science)

Independent assessor for 3rd year review, *University of Southampton*, F. Ge (PhD student in Operational Research)

2017–18 **Internal examiner for PhD thesis viva/defense**, *University of Southampton*, C. Lamas Fernandez (PhD student in Business Analytics)

Independent assessor for 2nd year review (MPhil to PhD upgrade), *University of Southampton*, Y. Zhang (PhD student in Operational Research)

Independent assessor for 2nd year review (MPhil to PhD upgrade), *University of Southampton*, S. Zachariades (PhD student in Operational Research)

Independent assessor for 2nd year review (MPhil to PhD upgrade), *University of Southampton*, F. Ge (PhD student in Operational Research)

2016–17 **Independent assessor for 2nd year review (MPhil to PhD upgrade)**, *University of Southampton*, M. Benedek (PhD student in Operational Research)

Independent assessor for 2nd year review (MPhil to PhD upgrade), *University of Southampton*, S. Zhou (PhD student in Operational Research)

Independent assessor for 1st year PhD review, *University of Southampton*, Y. Zhang (PhD student in Operational Research)

Independent assessor for annual PhD review, *University of Southampton*, H. Hall (PhD student in Operational Research)

2015–16 **Independent assessor 2nd year review (MPhil to PhD upgrade)**, *University of Southampton*, A. Robins (PhD student in Operational Research)

2011–12 **Member of MSc graduation committee**, *Politecnico di Milano*, Mathematical Engineering

Spoken languages

Italian (mother tongue), English (fluent), French (basic)

October 18, 2026
Dr. Stefano Coniglio
